Medical mice

Comfort and Control
Easy to Clean

A regular mouse just won't come clean. There are simply too many places for bacteria to get in—even if the mouse is waterproof.

Bio burden quickly accumulates between the gears of a scroll wheel, and deep inside the mouse are places that no disinfectant can reach. Our two medical mice are fully-sealed and fully functional.

You'll find glide and touch instantly familiar. The innovative five-button design allows scrolling and selecting with ease. Choose Mighty Mouse for a solid grip, or Petite Mouse with its streamlined body; the only difference is their shape.

7 Requirements for a Medical Grade Keyboard

- Fully sealed
- Disinfectable
- Hygienic white
- Lockable
- Easy to use
- Electrically safe
- No drop hazard

These hygienic white mice meet medical industry standards and withstand treatment with surface disinfectants, allowing you to safely integrate them in your cleaning protocol.
